

An event dedicated to combustion science compliant with **low-carbon mobility and energy**, organized under the auspices of the French and British sections of the Combustion Institute. Dedicated sessions will be held on:

- **Solid Biomass Combustion** (Keynote by **Alba Dieguez-Alonso/TU Berlin**)
- **Biofuels for transportation** (Keynote by **Alexander Heufer/RWTH Aachen**)
- **CO₂ capture and utilization** (Keynote by **Richard Marsh/Cardiff University**)
- **Ammonia combustion** (Keynote by **Christine Rousselle/Université d'Orléans**)
- **Hydrogen combustion** (Keynote by **Thierry Schuller/Université Paul Sabatier Toulouse**)

This conference will be hosted in **Lille**, on the **6th and 7th of May 2020**. Researchers are invited to submit an abstract on the conference website presenting their latest relevant research. Each session will comprise a plenary lecture, talks, and a dedicated slot for open discussion between participants.

Important dates

Submission of abstracts: Until **15th March, 2020**

Acceptance notification: **30th March, 2020**

Registration deadline: **6th April, 2020**

Registration

Registration fee: 150 €

Reduced fee for PhD students: 100€

This fee includes the coffee breaks, lunches and conference dinner.

Scientific committee

Nathalie Lamoureux, Université de Lille

Epaminondas Mastorakos, Cambridge University

Agustin Valera Medina, Cardiff University

Aimee Morgans, Imperial College

Christine Rousselle, Université d'Orléans

Laurent Selle, IMFT/CNRS

Guillaume Vanhove, Université de Lille
